Summary

SSE-I DEVOPS 4 +Years of experience in Aws, Azure, Devops and Site Reliability.

Experience

DevOps Engineer

CodeMint

Apr 2022 - Present (1 year 6 months)

Expertise in Linux Administration, Troubleshooting timely issues and Patching the servers to close vulnerabilities.

Deployments using (canary, Bluegreen) by GitHub actions onto the Kubernetes clusters.

Involved in AWS cloud infra using services like Ec2, S3, LB, Autoscaling, RDS, IAM, Route 53, AWS CodePipeline. AWS

CodeCommit. AWS CodeBuild.

Proficient with container systems like Docker, Kubernetes.

Building CI-CD pipeline using Jenkins. Managing Git and Github for repositories.

Installing, Configured and management in Ansible Centralized Server and creating the playbooks to support various middleware application servers.

DevOps Engineer

Coforge

Aug 2021 - Mar 2022 (8 months)

Santander Greenland(Bank).

Tasks

Provisioning AKS clusters using terraform by gitlab CICD.

Upgrade and maintenance of operators and cluster using pipeline gitlab CICD.

Observability of clusters using Azure log analytics.

Worked on creating the DNS Zones in Azure.

Troubleshooting AKS. Build and push docker images to ACR.

Involved in provisioning infrastructure using Terraform.

Created multi-stage Pipelines in Azure Devops.

Deployments using (canary, Bluegreen) by GitHub actions onto the Kubernetes clusters.

DevOps Engineer

RS Software

Nov 2020 - Jul 2021 (9 months)

NPCI (National Payments Corporation of India);

Worked on Creating the SSL certificates for the websites created.

Observability of clusters using Azure log analytics.

Expertise in Linux Administration, Troubleshooting timely issues and Patching the servers to close vulnerabilities.
Deployments using (canary, Bluegreen) by GitHub actions onto the Kubernetes clusters.
Involved in AWS cloud infra using services like Ec2, S3, LB, Autoscaling, RDS, IAM, Route 53, AWS CodePipeline. AWS
CodeCommit. AWS CodeBuild.
Proficient with container systems like Docker, Kubernetes.
Building CI-CD pipeline using Jenkins. Managing Git and Github for repositories.
KubernetesJenkins (CICD)
ELK
Devops
Jira bash python
gitlab terraform
prometheus Docker Nagios
Linux Aws Azure

DevOps Engineer

Creative Tech Mars Software Solutions Pvt Ltd

Jul 2017 - Nov 2020 (3 years 5 months)

Coforge (whish works It consultancy)

working for the client Daimler.; Observability of clusters using Azure log analytics.

Expertise in Linux Administration, Troubleshooting timely issues and Patching the servers to close vulnerabilities.

Deployments using (canary, Bluegreen) by GitHub actions onto the Kubernetes clusters.

Involved in AWS cloud infra using services like Ec2, S3, LB, Autoscaling, RDS, IAM, Route 53, AWS CodePipeline. AWS

CodeCommit. AWS CodeBuild.

Proficient with container systems like Docker, Kubernetes.

Building CI-CD pipeline using Jenkins. Managing Git and Github for repositories.

Installing, Configured and management in Ansible Centralized Server and creating the playbooks to support various middleware application servers.

Education

KL University

Bachelor of Technology, Mechanical Engineering

2011 - 2015

Skills

linux • Amazon Web Services (AWS) • Cloud Computing • Kubernetes • Microsoft Azure • Jenkins • Git • Continuous Integration and Continuous Delivery (CI/CD) • Terraform • Heroku
